

K-LOVE gives wholesome values, pulls the community and their listening audience together with positive broadcasting, uplifting music. The DJ's care about people, government encourages you to support your local, state, and Federal government regardless of your party. When the listener is encouraged to be a good citizen, have good values and love your neighbor, that encouragement is sent to many cities and states. We need more FM stations like K-LOVE not less, I am asking you not to displace stations like K-love with LPFM.  
Thank You - Donna Cooper

One of the things I really enjoy is being able to listen to K-LOVE and knowing my daughter in Oregon is listening to the same thing I am.
